TEXAS LEGISLATURE.

The Impeachment Resolution Taken up by the House.

ALL DAY'S DEBATE.

It Attracted a Crowd at the Capitol, Many Being Ladies - Senate Clears its Calendar of All Pending Measures.

Austin, Aug. 23 .- The big attraction at the capitol yesterday was the debate upon the resolution looking to the impeachment of State Treasurer Robbins. There were many spectators present, among them about four score of ladies, who paid the closest attention to the speeches, which they do not when they grace the house with their presence during the ordinary grind of business.

When the resolution came up the effort to refer it to the committee on state affairs was not renewed. The opponents of the resolution instead went to to the support of the Hawkins substitute, which condemns the practice that has been observed, but protests that impeachment is unwise and unnecessary.

Although it is a foregone conclusion that the impeachment resolution will not be adopted, the whole day was devoted to debating it and the speech-

warm debate, the senate was making hay. During the day it cleared its caltricting bill over to the house. It passed of the United States. ATTACKED DECISION.

Littlefield Creates a Sensation Before the American Bar Association

Denver, Aug. 23.-A sensation was caused at Thursday's session of the American Bar association by the address of Congressman Littlefield in the insular cases. Mr. Littlefield's address drew forth load and long continued applause and a motion was made to tender him a vote of thanks for it, but this was declared out of order by the president on the ground that the speaker is not a member of the association. The view of the mover was not, however, universal with the members.

Before recess was taken Adolph Moses of Chicago, made a vigorous protest against what he characterized as an unwarranted attack upon the supreme court of the United States. His remarks were cut off by a point of order, but his words were greeted with applause in which a considerable minority of the convention joined.

NEW RAILROAD PROJECT.

I. & G. N. to Parallel the Southern Pacific-Will Enter New Orleans.

When the Southern Pacific railroad system decided upon the construction of a line of read that virtually parallels the Texas & Pacific from New Orleans to Dallas George Gould and his railroad associates got mad. When the Houston & Texas Central bought up one of the feeders of the International & Great Northern (The Hearne & Brazos Valley) afterward the Gould crowd got mad-der, so much so in fact that they apparently decided to lead the Southern Pacific peerple a merry race for the systemacy in handling Texas and Louisiana tariff.

The purchase of one of the International's feeders by the Central seems to be the straw that broke the camel's back of Gould toleration, for the Gould interests at once determined upon the construction of a line that would parallel and compete for traffic with the Houston & Texas Central. Thus it was that the Ft. Wor h branch of the International & Great Northern, the Calvert, Waco & Brazos Valley road, was pro-

This road is now open as far as Mart on the north end, and will, in all probability, be completed in to Waco by September 15. Work is also being pushed on the south end of the line between Navasota and Houston, it being intended to connect with the main line at Spring, Harris county, by November 15, paralleling the Houston & Texas Central all the way. That the building of this road is a retaliatory movement against the Southern Pacific and the Houston & Texas Central no one will deny, and the project now in contemplation has been inspired largely by the same spirit.

The new road, or more properly the project that is now being favorably considered, will be an immensely important enterprise, built to parallel and compete with the Southern Pacific main line between Houston and New Orleans. It will be an extension of the International & Great Northern from Houston to New Orleans, and it is stated on high authority that the project is certain to become a reality in the almost immediate fu-

FOR MOTHERS.

The period immediately following child-birth is fraught with many dangers. The strength has been used in the painful ordeal through which the mother has passed and she finds herself helpless and weakened. Many mothers, like Mrs. Ford, date the beginning of their illness from the birth of their child. Indeed the frequent spectacle of a healthy young woman becoming a chronic invalid after motherhood is one of the tragedies of life. All this is unnecessary, when Wine of Cardui is obtainable. It rehabilitates the

shattered nervous system, strengthens the organs and ligaments, and re-establishes a healthy, natural condition, saving years of chrome sickness and suffering.

Wine of Cardui taken just before confinement will render the ordeal comparatively painless. It will re-enforce and strengthen the organs for their work. For every trying crisis in a woman's life, Wine of Cardui is the medicine to take. Ask your druggist for Wine of Cardui and take no substitute. If one is offered send \$1.00 for a bottle to the Chattanooga Medicine Company, Chattanooga,

THE SULTAN WARNED

French Ambassador Tells Him What He Can Expect.

MUST SETTLE NOW

The Letter Is in the Nature of an Ultimatum and Gives the Sultan but a Brief Time in Which to Decide the Matter.

Constant 0 Ang. 23 .- The French onstans, today sent ambassador, a letter to the sult a personally informing him he would have Constantinople with his entire staff if matters in dispute are not settled immediately.

The letter has the nature of an ultimatum. It accords the sultan the briefest delay in which to comply with the

FRANCE IN EARNEST.

Will Try Several Schemes Before Resorting to Force.

New York, Aug. 23.-The French government is thoroughly in earnest in its attitude toward Turkey, and is fully aware that at the present moment no foreign power would raise any objections to a French fleet resorting to most drastic measures, says a Paris dispatch to The Tribune.

According to information that has reached Paris the real reason for the sultan changing his mind, declining to fulfill his promise, was due to his hopes that the obstreperous clamor of the nationalist party in France would induce M. Delcasse, the minister of foreign affairs, to disavow M. Constans. The sultan's great objection to the French concession is that if the Constantinople quays were under the control of a French or other foreign company there would be disquieting facilities for the landing of conspirators and their baggage. But Constans gave the sultan the option of buying back the dangerous quays by paying 41,000,000 francs for them within six months and provided the porte with a scheme for raising the cash.

An important factor of the situation is that the sultan is known to be in great fear of the young Turk party whose headquarters are in France and who have for years been conspiring to get rid of Abdul Hamid. In fact, the sole duty of Munir Bey, the Turkish ambassador in Paris for the last four years, has been to watch these young Turks and to send confidential reports ment of the position he had taken. to the Yildiz Kiosk about their doings.

Munir Bey just now is absent from France, but in the case Constans should decide to exert his authority to break off diplomatic relations with Turkey one of the first steps of the French government would be to inform Munir Bey that he could not re-enter France. Thereby the sultan would be kept in ignorance of the machinations of the young Turk conspirators, and it is thought that this would have upon the timorous bulcrafty character of Abdul Hamid greater effect all events, the French government has several other trump cards up its sleeve strations or acts of hostility, such as the seizure of customs dues or bombard-

Valet Jones Improving.

New York, Aug. 23.-Assistant District Attorney Garvan, who has had Charles J. Jones in charge since the latter attempted suicide while in jail waiting trial for the alleged murder of his employer, William M. Rice, the aged millionaire from Texas, says Jones is still under police surveillance and regularly visited by a physician, but the prisoner is improving in health. He is taken out about once a week for a drive through Central park, and Assistant District Attorney Garvan is of the opinion that when the case is called for trial Jones will be himself again.

Hunting Fraudulent Emigrants.

New York, Aug. 23.-No report concerning the result of the investigation of alleged immigration frauds will be given out by the officials until the work is completed and until the official report goes to Washington. Thomas F. Riche, commissioner of immigration, approves the work that has so far been done. It is understood that officials of cities will be asked to trace up people suspected of getting into this country without having passed the regular inspection. If it can be proven that they were passed as a result of the supposed fraud, they will sent home.

Jacob Rogers Estate.

New York, Aug. 23.—Tax collectors for the city and the state of New Jersey are closely watching the work of valuing the estate of the late Jacob S. Rogers, who left the quarter part of his estate to the Metropolitan Museum of Arts. It is estimated that the tax on the estate will amount to \$1,000,000.

WANT NEGROES OUSTED. Americans Protest Against Their Admit-

tance to English Hotels.

New York, Aug. 23 .- All the London papers publish articles on the objections of the American patrons of the St. Ermius hotel to negroes and the subject is much discussed in the hotels, says The Journal. Englishmen theoretically side with the negroes, while the Americans as a rule are outspoken the other way.

Bishop Gaines of Atlanta, Ga., one of the negro delegates to the ecumenical conference, and who caused the protest, is still at the hotel. He said in an interview:

"I have been staying at this hotel off and on since the beginning of July and was never better treated anywhere. I regret exceedingly to hear that trouble as caused by the arrival of Bishops Arnett, Tanner and others. I was in Paris when the protest was made.

"I have met Americans, even from Texas, all over the continent and received welcome greetings from them. During my trip through Holland, Belgium, Germany, Switzerland, Italy and France I had not an insult from an American or any one else.

"I sailed from New York on the St. Louis and was treated like any other cabin passenger, I preached on Sunday at the request of Senator Mitchell of Oregon and General Grosvener. America would be the best country in the world if it could get rid of its race prejudices. Laboring white men in Europe are oppressed as badly as the negro in America except when it is a question of liberty, then the laborer has the same justice as his richer brother, especially in Great Britain. I hope to see the day when it will be the same in America.'

W. Winfield, manager of the Anglo-American bank of New York, one of the protesting patrons of the St. Ermins

"I do not object personally to Bishop Gaines or his daughter, who are fine people. They crossed on the same steamer with me and were liked by every one on board. He is a highly intellect man. But with regard to negroes generally, I object strongly to their presence in first class hotels frequented by white people. and protest against the privileges accorded to them in Europe generally.

"It gives me a shock when I see white girl walking at the side of a ne-As of the attitude of Hotel Manager Richardson, I excuse him because he is an Englishman; if he was an American nothing on earth would make me do so. Imports and Export Increase.

Washington, Aug. 23.-A continued increase in both import and export trade of the Philippines is shown in a comparative statement compiled at the war department giving the commerce of the islands for seven months ending Jan. 31, 1901 and 1900. Total value of merchandise imported during seven months ended Jan. 31, 1901, was \$a7,999,167 as against \$12,674,705 for the same period in 1900 and merchandise exported was \$12,637,359 as against \$8,305,430 for 1900 period. This shows an increase of 42 per cent in value of imports and 52 per cent in export values.

The Impeachment Resolution Taken up by the House.

ALL DAY'S DEBATE.

It Attracted a Crowd at the Capitol, Many Being Ladies -- Senate Clears its Calendar of All Pending Measures.

Austin, Aug. 23.—The big attraction at the capitol yesterday was the debate upon the resolution looking to the impeachment of State Treasurer Robbins. There were many spectators present, among them about four score of ladies, who paid the closest attention to the speeches, which they do not when they grace the house with their presence during the ordinary grind of business.

When the resolution came up the effort to refer it to the committee on state affairs was not renewed. The opponents of the resolution instead went to to the support of the Hawkins substitute, which condemns the practice that has been observed, but protests that impeachment is unwise and unnecessary.

ATTACKED DECISION.

Littlefield Creates a Sensation Before the American Bar Association.

Denver, Aug. 23.-A sensation was caused at Thursday's session of the American Bar association by the address of Congressman Littlefield in the insular cases. Mr. Littlefield's address drew forth loud and long continued applause and a motion was made to tender him a vote of thanks for it, but this was declared out of order by the president on the ground that the speaker is not a member of the association. The view of the mover was not, however, universal with the members.

Before recess was taken Adolph Moses of Chicago, made a vigorous protest against what he characterized as an unwarranted attack upon the supreme court of the United States. His remarks were cut off by a point of order, but his words were greeted with applause in which a considerable minority

NEW RAILROAD PROJECT.

I. & G. N. to Parallel the Southern Pacific-Will Enter New Orleans.

When the Southern Pacific railroad system decided upon the construction of a line of read that virtually parallels the Texas & Pacific from New Orleans to Dallas George Gould and his railroad associates got mad. When the Houston & Texas Central bought up one of the feeders of the International & Great Northern (The Hearne & Brazos Valley) afterward the Gould crowd got madder, so much so in fact that they apparently decided to lead the Southern Pacific peerple a merry race for the systemacy in handling Texas and Louisiana tariff.

The purchase of one of the International's feeders by the Central seems to be the straw that broke the camel's back of Gould toleration, for the Gould interests at once determined upon the construction of a line that would parallel and compete for traffic with the Houston & Texas Central. Thus it was that the Ft. Wor h branch of the International & Great Northern, the Calvert, Waco & Brazos Valley road, was pro-

This road is now open as far as Mart on the north end, and will, in all probability, be completed in to Waco by September 15. Work is also being pushed on the south end of the line between Navasota and Houston, it being intended to connect with the main line at Spring, Harris county, by November 15, paralleling the Houston & Texas Central all the way. That the building of this road is a retaliatory movement against the Southern Pacific and the Houston & Texas Central no one will deny, and the project now in contemplation has been inspired largely by the same spirit.

The new road, or more properly the project that is now being favorably considered, will be an immensely important enterprise, built to parallel and compete with the Southern Pacific main line between Houston and New Orleans. It will be an extension of the International & Great Northern from Houston to New Orleans, and it is stated on high authority that the project is certain to become a reality in the almost immediate fu-

Such assurance from such a source finds practical confirmation in the fact that the Gould interests have determined to put into operation a steamship line between New Orleans and Philadelphia, touching also at points in Mexico and Central America.

The International & Great Northern will experience no difficulty in securing terminal facilities at New Orleans and will not have to cross the river. The Texas & Pacrowds. As they have not been here cific already have ample faci ities on this side of the river, and it being a Gould property, would, of White Crest Flour and Dwinnell, course, share its advantages with Wright and Co's. FOR MOTHERS.

The period immediately following child-birth is fraught with many dangers. The strength has been used in the painful ordeal through which the mother has passed and she finds herself helpless and weakened. Many mothers, like Mrs. Ford, date the beginning of their illness from the birth of their child. Indeed the frequent spectacle of a healthy young woman becoming a chronic invalid after motherhood is one of the tragedies of life. All this is unnecessary, when Wine of Cardui is obtainable. It rehabilitates the shattered nervous system, strengthens the organs and ligaments, and re-establishes a healthy, natural condition, saving years of chronic stekness and suffering. Wine of Cardui taken just before confinement will render the ordeal comparatively painless. It will re-enforce and strengthen the organs for their work. For every trying crisis in a woman's life, Wine of Cardui is the medicine to take. Ask your druggist for Wine of Cardui and take no substitute. If one is offered send \$1.00 for a bottle to the Chattanooga Medicine Company, Chattanooga,

THE SULTAN WARNED

French Ambassador Tells Him What He Can Expect.

MUST SETTLE NOW.

The Letter Is in the Nature of an Ultimatum and Gives the Sultan but a Brief Time in Which to Decide the Matter.

Constant. Aug. 23.—The French enstans, today sent ambassador, a letter to the salt a personally informing him he would leave Constantinople with his entire staff if matters in dispute are not settled immediately.

The letter has the nature of an ultimatum. It accords the sultan the briefest delay in which to comply with the demands.

FRANCE IN EARNEST.

Will Try Several Schemes Before Resorting to Force.

New York, Aug. 23.—The French government is thoroughly in earnest in its attitude toward Turkey, and is fully aware that at the present moment no foreign power would raise any objections to a French fleet resorting to most drastic measures, says a Paris dispatch to The Tribune.

According to information that has reached Paris the real reason for the sultan changing his mind, declining to fulfill his promise, was due to his hopes that the obstreperous clamor of the nationalist party in France would induce M. Delcasse, the minister of foreign affairs, to disavow M. Constans. The sultan's great objection to the French concession is that if the Constantinople quays were under the control of a French or other foreign company there would be disquieting facilities for the landing of conspirators and their baggage. But Constans gave the sultan the option of buying back the dangerous quays by paying 41,000,000 francs for them within six months and provided the porte with a scheme for raising the cash.

An important factor of the situation is that the sultan is known to be in great fear of the young Turk party whose headquarters are in France and who have for years been conspiring to get rid of Abdul Hamid. In fact, the sole duty of Munir Bey, the Turkish ambassador in Paris for the last four years, has been to watch these young Turks and to send confidential reports ment of the position he had taken. to the Yildiz Kiosk about their doings.

Munir Bey just now is absent from France, but in the case Constans should Only a Few of Those First Entering the decide to exert his authority to break off diplomatic relations with Turkey one of the first steps of the French government would be to inform Munir Bey that he could not re-enter France. Thereby the sultan would be kept in ignorance of the machinations of the young Turk conspirators, and it is thought that this would have upon the timorous bulcrafty character of Abdul Hamid greater effect than even a naval demonstration. At strations or acts of hostility, such as the seizure of customs dues or bombard-

Valet Jones Improving.

New York, Aug. 23.-Assistant District Attorney Garvan, who has had Charles J. Jones in charge since the latter attempted suicide while in jail waiting trial for the alleged murder of his employer, William M. Rice, the aged millionaire from Texas, says Jones is still under police surveillance and regularly visited by a physician, but the prisoner is improving in health. He is taken out about once a week for a drive through Central park, and Assistant District Attorney Garvan is of the opinion that when the case is called for trial Jones will be himself again.

New York, Aug. 23 .- No report concerning the result of the investigation of alleged immigration frauds will be given out by the officials until the work is completed and until the official report goes to Washington. WANT NEGROES OUSTED. Americans Protest Against Their Admit

tance to English Hotels. New York, Aug. 23 .- All the London papers publish articles on the objections of the American patrons of the St. Ermius hotel to negroes and the subject is much discussed in the hotels, says The Journal. Englishmen theoretically side with the negroes, while the Americans as a rule are outspoken the other way. Bishop Gaines of Atlanta, Ga., one of

the negro delegates to the ecumenical conference, and who caused the protest, is still at the hotel. He said in an interview:

"I have been staying at this hotel off and on since the beginning of July and was never better treated anywhere. I regret exceedingly to hear that trouble as caused by the arrival of Bishops Arnett, Tanner and others. I was in Paris when the protest was made.

"I have met Americans, even from Texas, all over the continent and received welcome greetings from them. During my trip through Holland, Belgium, Germany, Switzerland, Italy and France I had not an insult from an American or any one else.

"I sailed from New York on the St. Louis and was treated like any other cabin passenger, I preached on Sunday at the request of Senator Mitchell of Oregon and General Grosvener. America would be the best country in the world if it could get rid of its race prejudices. Laboring white men in Europe are oppressed as badly as the negro in America except when it is a question of liberty, then the laborer has the same justice as his richer brother, especially in Great Britain. I hope to see the day when it will be the same in America.'

W. Winfield, manager of the Anglo-American bank of New York, one of the protesting patrons of the St. Ermins

"I do not object personally to Bishop Gaines or his daughter, who are fine people. They crossed on the same steamer with me and were liked by every one on board. He is a highly intellect man. But with regard to negroes generally, I object strongly to their presence in first class hotels frequented by white people. and protest against the privileges a corded to them in Europe generally.

"It gives me a shock when I see white girl walking at the side of a negro. As of the attitude of Hotel Manhe is an Englishman; if he was an American nothing on earth would make me do so. When Europeans get to know the negro as we know him, they will curtail his privileges."

Manager Richardson said he had received many written and verbal messages of congratulation and endorse-

BOER LEADERS.

War in the Field.

London, Aug. 23.—A Pretoria dispatch gives some interesting statistics of the Boer leaders. Of the members of the old government executive council only Schalkburger and Reitz are in the field. General Joubert is dead, General Cronje is a prisoner and General Koch was killed. Out of 27 members of the first volksraad, 13 are accounted for. Barnall events, the French government has ard LaBuschage and Malan have been several other trump cards up its sleeve killed. Tosen is dead. Wolmarens is a to play before resorting to naval demon- prisoner. Eight members of the first volksraad have surrendered.

About half of the members of the second volksraad are accounted for.

All the holds of the state departments are accounted for except Smitz. Three of them are in Europe, two are prisoners and 14 have surrendered. The judges are all accounted for.

Seventy-five per cent of the sub-heads of departments are accounted for.

Strict Martial Law.

Cape Town, Aug. 23.- A fresh order proclaiming martial law has been issued providing for the closing of all the country stores in the Queenstewn dis trict requiring all goods likely to be use ful to the enemy be taken to certain specified towns and forbidding country residents to have in their possession more than a week's provisions.

Imports and Export Increase.

Washington, Aug. 2d.-A continued increase in both import and export trade of the Philippines is shown in a comparative statement compiled at the war department giving the commerce of the islands for seven months ending Jan. 31, 1901 and 1900. Total value of merchandise imported during seven months ended Jan. 31, 1901, was \$a7,999,167 as against \$12,674,705 for the same period in 1900 and merchandise exported was \$12,637,359 as against \$8,305,430 for 1900 period. This shows an increase of 42 per cent in value of imports and 52 per cent in export values.

Missing Since July.

New York, Aug. 23 .- Mrs. Madeline Hobson Bennett, who claims to be a relative of Captain R. P. Hobson, has notified police of Jersey City that her husband, Stuart Bennett, has been missing since July 20, which day he started from New York for Bristol, Tenn., where his wife was ill. Mrs. Bennett received a dispatch from him in whigh he would go to her on the first train.

Commercial, Probate and General Civil Practice Examined, Abstracts Made and Deeds Written. Office in Courthouse. Notary Public in office. Bryan, Texas. dw She has heard nothing from him since. Mrs. Bennett fears he has met with foul play.

Statement from Stowers.

Jackson, Miss., Aug.-State Treasurer Stowers gave out a statement in regard to the alleged shortage over of \$100,000, when the governor counted the cash on Aug. 15. He says the money was deposited in state banks with good collateral.
